1-In proposed Article XXI, towns of twelve thousand inhabitants or more may be divided in forming representative districts. No precincts,however, in such towns may be divided. In taking the census the special enumeration of legal voters shall specify the number residing in each precinct of such towns. Under existing Amendment XXI no town may be divided and no specification of the number of voters in a precinct is required.

2-The division of a country into representative districts and the apportionment of representatives to districts therein is to be made by"The county commissioners or other body acting as such or, in lieu thereof,such board of special commissioners in each county as may for that purpose be provided by law,------" Under Article XXI as it now stands the division and apportionment is made by "The mayor and aldermen of the city of Boston, the county commissioners of other counties than Suffolk,- or in lieu of the mayor and aldermen of the city of Boston, or of the county commissioners in each county other than Suffolk, such board of special commissioners in each county to be elected by the people of the county, or of the towns therein, as may for that purpose be provided by law----" The time for assembling of such commissioners,board or body for the purpose of making such division and apportionment is also changed,from the first Tuesday of August next after each assignment by the Legislature of the number of representatives to each county, to a time within thirty days after certification by the Secretary of the Commonwealth to such commissioners, board or body of the number so assigned, or within such other period as the General Court may by law provide.

3-Under the proposed Articles, each special enumeration shall be the basis for determining the districts,senatorial,representative and councillor, for the ten-year period beginning in the fourth January following said special enumeration and the present division of districts is to remain in effect until January 1939. Under the existing amendments the ten-year period is the period between the taking of each census.(Thus, the next redivision based upon the next census in 1935 would,under the proposed Articles, affect those elected in 1935 to hold office beginning January,1939, instead of affecting those elected in 1936 to hold office beginning in January,1937. Under existing amendments representation of newly created districts begins in January of the second year after each

ten-year census, whereas under the proposed article it would begin in January of the fourth year thereafter.) The number of representatives(240), senators(40),and councillors(8) is not changed.							
4-The Legislature may limit the time within which a division of representative, councillor or senatorial districts may be questioned by judicial proceedings. The existing amendments contain no provision that itself limits or authorizes the Legislature to limit such time.
